PROFILE SUMMARY

Results-driven Data Analyst with a B.Sc. in Statistics and hands-on experience in SQL, Python, Power BI, and Excel. Skilled in transforming complex data into actionable insights through advanced analysis and interactive visualizations. Proven ability to identify trends, optimize decision-making, and support business growth. Experienced as a Data Analyst Executive (BI-focused) at Epic Group, with a strong passion for leveraging data to solve real-world problems.

EXPERIENCE

Trade Intercontinental, 213/A, Tejgaon I/A, Dhaka-1208

Data Analyst Executive- Epic Group

 01/04/2024-Continue

- Delivered BI solutions and data-driven insights using SQL and database management systems to support decision-making and operational performance.
- Developed interactive dashboards and reports to transform complex data into actionable insights.
- Managed and optimized databases to ensure data accuracy, integrity, and efficient querying.
- Collaborated with finance, merchandising, production, and retail teams to improve processes and efficiency.
- Coordinated with suppliers and vendors to ensure smooth operations and timely execution.

EDUCATION

BSc in Statistics

 01/2019 – 5/2023

Mawlana Bhashani Science & Technology University

Tangail, Bangladesh

SKILLS

Programming Language

Python, SQL, R

Data Visualization

Power BI, Excel/Google Sheet

Matplotlib, Seaborn, Sckit-learn

Framework

Pandas, NumPy

Statistical Analysis

EDA, Time Series Analysis

Database

My SQL, Snowflake

Modeling Technique

Linear Regression

Logistic Regression

PROJECTS

Retail Customer Cohort Analysis [Live](#) [Github](#)

The project employs PowerBI for retail cohort analysis, covering retention, performance, churn, churned customer insights, and recovered customer assessment. It enables data-driven decisions, enhances retention, targets marketing, and boosts customer experience, driving growth and profitability.

Adventure Work Bike Shop Data Analysis [Live](#) [Github](#)

Build an interactive dashboard using PowerBI to analyze and visualize data from the Maven Analytics Adventure Works Bike Shop dataset, incorporating data cleaning, DAX calculations, and geographic mapping.

• **Supermarket Sales Analysis** [🔗 Github](#)

Performed in-depth data analysis on Superstore sales data using Excel pivot tables to uncover actionable insights and trends, providing a comprehensive overview of supermarkets' key performance indicators (KPIs)

• **Hotel Management Analysis** [🔗 Live](#)

Performed the build of an interactive dashboard using Power BI to analyze and visualize data, which provides a comprehensive overview of key performance metrics related to hotel bookings, cancellations, and revenues.

CERTIFICATIONS

- Data Analyst in Power BI_Datacamp [🔗 Link](#)
- 365 Data Science_Data Analyst Career Track [🔗 Link](#)
- Maven Analytics_ MySQL Data Analysis, Power BI & Python [🔗 Link](#)
- 365 Data Science_Business Analyst Career Track [🔗 Link](#)
- 365 Data Science_Python Programmer Bootcamp [🔗 Link](#)

CORE COMPETENCIES

- **Data Analytics** SQL • Python • Pandas • NumPy • R • EDA • Statistical Analysis • Time Series Analysis
- **Business Intelligence** Power BI • DAX • Interactive Dashboards • KPI Reporting • Data Visualization
- **Data & Databases** MySQL • Snowflake • Database Management • Data Cleaning • Data Integrity • Efficient Querying
- **Modeling** Automation Scripts • AI-assisted tools • Process Improvement • Business-to-Data Translation
- **Automation & AI** Requirement Gathering • Stakeholder Communication • Team Collaboration • Problem Solving
- **Business Skills** Linear Regression • Logistic Regression • Scikit-learn

COURSES

- Interactive Cares: Data Analytics and BI Carrier Path [🔗 Link](#) 📅 08/2024 – 01/2025
- Data Science and Machine Learning Career Path [🔗 Link](#) 📅 05/2025 – 11/2025
